Introduction

The Audi A5

- a combination of style and power

Exceptional design is something you'll find everywhere in the Audi A5 Coupé and A5 Cabriolet – from the beautiful lines of the exterior to the highly efficient fuel-injection technology within. An aerodynamic shape, muscular wheel arches and low-profile alloy wheels give this car a very special blend of style and performance, which is only emphasised by the choice of dynamic engines and transmissions available.

Audi Ireland has made every effort to ensure the accuracy of this information but does not accept any liability for errors.

Audi Efficiency Leads the Way

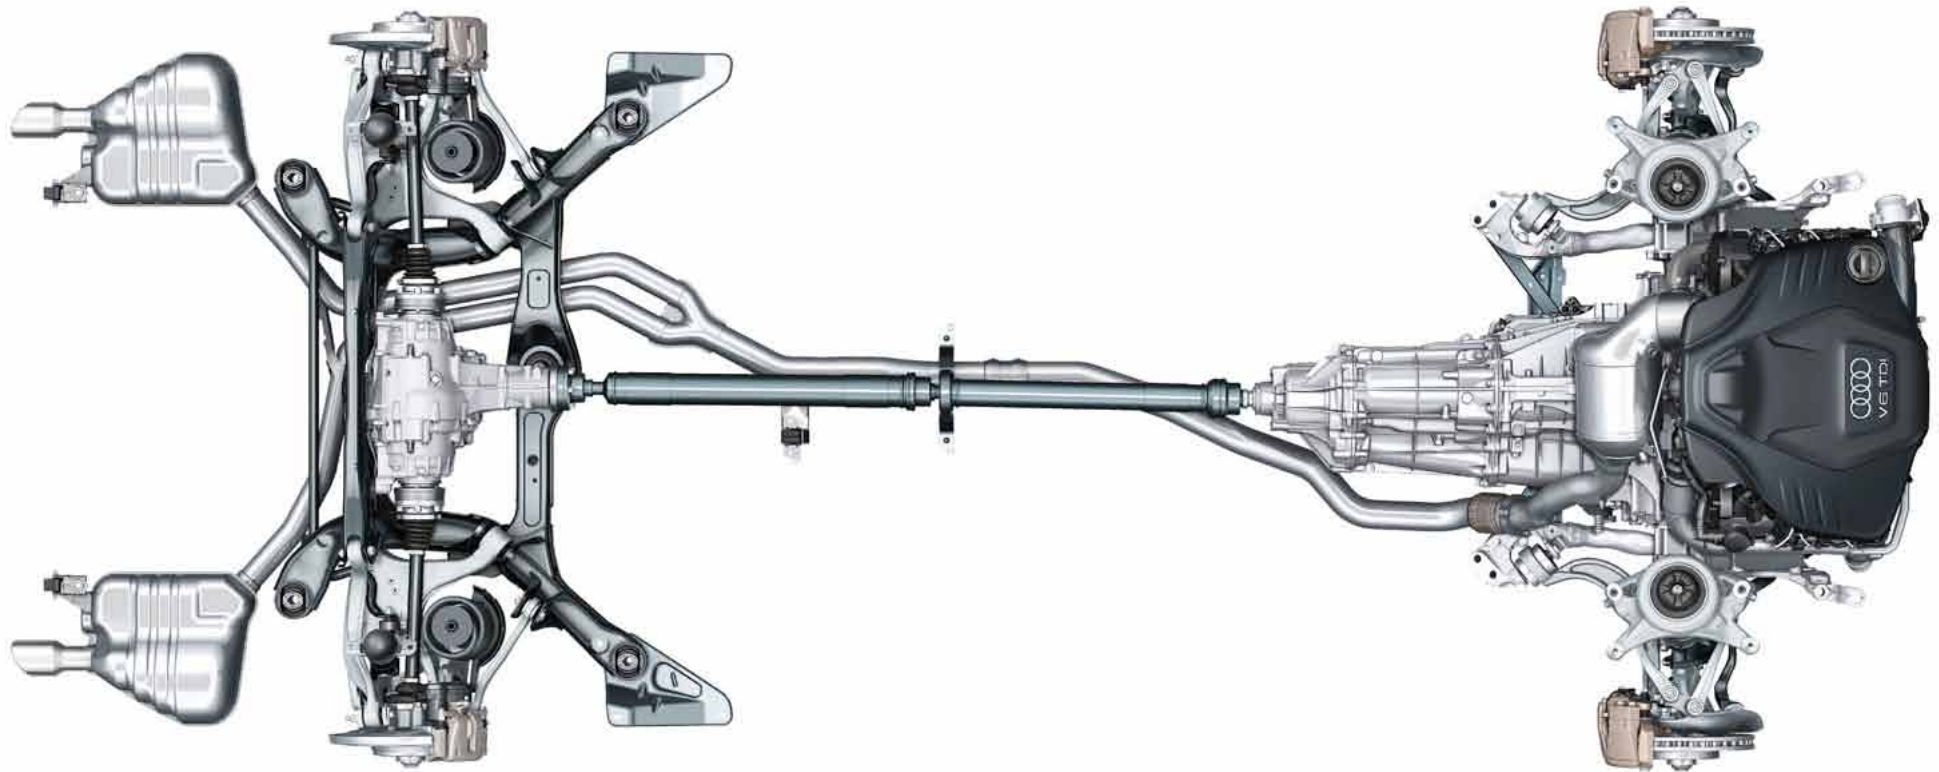

For Audi, efficiency is the sum of a large number of individual measures that combine to produce one major result – the combination of low consumption, comfort and immense driving pleasure. In order to reduce fuel consumption and emissions, the engineers at Audi work intensively on all vehicle components and systems. This applies as much to the continued development of innovative engine technology as it does to highly efficient drivetrain and transmission components, intelligent lightweight body construction and streamlined aerodynamics.

New 1.8TFSI and 3.0TDI engines are the most efficient in their class. Start stop technology is now standard for all variants (manual and s-tronic). New technologies such as better thermal management and electromechanical steering reduce CO₂ emissions. All of this adds up to a clear reduction in CO₂ across the model range

about Audi Efficiency*

The advantage of quattro®

It's the technology that has given Audi the edge on the racetrack ever since it was first introduced over 30 years ago – a technology that delivers ultimate control whilst enhancing the sporty characteristics which make the A5 so thrilling to drive.

Click the target below for more information on quattro

It's called quattro® permanent all-wheel drive. The principle is simple: in the same way that four brakes ensure better deceleration, four permanently-driven wheels deliver better acceleration and road-holding, pushing or pulling the car as needed, for a driving experience that's both dynamic and safe. In the A5, asymmetric dynamic torque distribution continuously distributes drive power between the front and rear axles, depending on weather conditions, road surface and gradient. This leads to greater flexibility and an enhanced, sportier drive.

quattro® with Sports differential

The optional electronically regulated Sports differential distributes variable amounts of drive force to each rear wheel, ensuring outstanding acceleration performance in corners and stabilising the vehicle's response to load change. It also brings better direct steering characteristics and, as it requires less steering effort, more agile handling.

What is a Personal Contract Plan?

Options

Decide on 1 of 3 options

Audi Finance Personal Contract Plan (PCP) gives you flexible finance options and the convenience of a guaranteed future value (GFV) for your new Audi. This personal contract plan is based on a hire purchase agreement with a difference. It allows you to use the equity in the future value of your Audi to reduce your monthly payments and avail of a shorter termed agreement. A PCP contract over 36 months may have similar monthly rentals to a 60 month agreement using traditional hire purchase.

Finance

*Outstanding amount
between the deposit GFV*

You pay a small deposit (as little as 10% of the purchase price) and benefit from attractively low monthly installments and a guaranteed future value for your new Audi. At the end of your contract you may choose to change your Audi for a brand new model, keep it or simply return it to your dealer.

So, whether you want to drive the latest and safest model, upgrade regularly or simply keep your new Audi, Audi Finance PCP makes your money go further.

Audi Exclusive

Every Audi is intrinsically exclusive. It's the breathtaking design, the exceptional engineering, the Vorsprung durch Technik. But for that special touch you can specify your new A5 with options from Audi exclusive. Whether you want a unique, custom-mixed paint colour or seats in a combination of complementary shades, Audi exclusive will enable you to drive the car you've always imagined. Both the exclusive and standard options can be found in this Product Guide

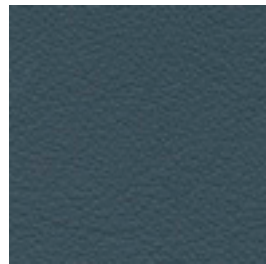

Audi Exclusive

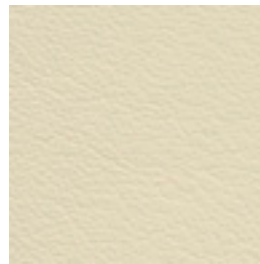

Upholstery

With Audi exclusive, you can specify your seats in Valcona, Fine Nappa leather or a leather/Alcantara combination, in an array of different colours shown to the right.

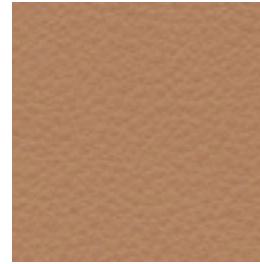

Select just one all-over shade for each seat, or customise each panel in two or more complementary colours from the distinctive Audi exclusive palette. You can even choose the colour of the decorative stitching – to match or contrast with your chosen upholstery – from this varied collection. Whatever combination you decide upon, we think you'll be extremely comfortable with the result.
